SUMMARY

Fullstack Engineer with 6 years of experience in developing and maintaining web and mobile applications. Proficient in JavaScript, Typescript, React.js, Next.js, Node.js, Java, .Net, and Playwright. Experienced in manual and automated testing, ensuring high-quality applications. Skilled in Agile and Waterfall methodologies, with a focus on optimizing performance and enhancing user experiences.

EXPERIENCE

Fullstack Engineer | Leapin – REMOLUTION COMPANY | Can Tho, Viet Nam | February 2023 – Present

- Developed the system's frontend using React.js, Tailwind CSS, shadcnUI, and Next.js to build a platform that automates the talent acquisition, recruitment, and onboarding process, trusted by 100+ global companies.
- Built and maintained backend services using Node.js, implementing features such as exporting PDFs from CVs, extracting data from PDFs, sending emails via Nodemailer, and creating APIs with Express for seamless integration.
- Deployed applications with Docker and PostgreSQL for reliable data management.
- Integrated testing workflows with Playwright and conducted manual testing to ensure system quality and reliability.
- Integrated OAuth and SSO authentication solutions to streamline user onboarding and enhance platform security, ensuring compatibility across diverse enterprise environments.

Frontend Developer | Nashpush – REMOLUTION COMPANY | Can Tho, VietNam | May 2021 – February 2023

- Engineered and optimized front-end features using JavaScript, React.js, and Ag-Grid, supporting real-time push notification functionality.
- Developed responsive and user-friendly interfaces, integrating Ag-Grid to display and manage data for users effectively.
- Enhanced application performance, reducing load times and ensuring smooth mobile responsiveness across devices.
- Collaborated with backend teams to integrate push notifications and real-time data delivery for a seamless user experience.
- Upgraded UI components to align with evolving brand guidelines, ensuring consistent user experience and facilitating easier scalability across product offerings.

Frontend Developer | Almapay – REMOLUTION COMPANY | Can Tho, Viet Nam | July 2020 – May 2021

- Developed and maintained web applications using Next.js and Gatsby, delivering seamless, high-performance user experiences.
- Collaborated with cross-functional teams to implement new features and optimize platform performance.
- Optimized front-end performance, ensuring fast load times and mobile responsiveness.
- Integrated APIs and third-party services, enhancing payment processing and transaction capabilities.

Developer/Test Leader | FPT Software Ho Chi Minh | Ho Chi Minh, VietNam | November 2016 – July 2020

- Developed and enhanced web applications, adding new functionalities, integrating third-party systems, and resolving critical bugs to ensure system stability and a seamless user experience.
- Designed and executed comprehensive testing strategies, leading manual and automated testing efforts, which reduced production issues by 30%.
- Reviewed and optimized test cases, streamlining the testing process and improving coverage for critical application modules.
- Led project planning and task management, resolving key challenges and ensuring timely delivery of projects for stakeholders.

EDUCATION

Information System | Can Tho University | Can Tho, VietNam | 2017 | 3.17 GPA

CERTIFICATIONS

Project Management Fundamental Certificate (PMF) | FPT software Ho Chi Minh
